WELL-BEING STARTS HERE

creating better environments

Forbo

FLOORING SYSTEMS

CONNECT WITH **MODERN NATURE**

We help to create better environments
that add to the well-being of everyone
and everything.

Together with nature, we've designed floors that form the
foundation of healthy spaces, where people can happily
move, work, learn, heal, play and relax.

We invite you to create sustainable spaces that have
a positive impact on everyone and everything.

marmoleum®

Climate positive, cradle to gate,
without offsetting

marmoleum®
climate positive
CRADLE TO GATE

marmoleum®

WELL-BEING STARTS HERE

In a world where we spend approximately 85% of our time indoors, it's only natural to prioritise enhancing the quality of these spaces. Whether it's schools, healthcare facilities, workplaces, leisure centres, or our homes, every square meter provides an opportunity to infuse the best elements of nature into our indoor surroundings. That's why we've made it our mission to design and offer flooring solutions that have a positive impact on individual health and comfort. Seamlessly integrating nature into our indoor spaces and forging a harmonious connection with the natural world.

Marmoleum plays a significant role in enhancing the well-being of everyone it touches. From the utilisation of natural raw materials to the spectrum of colours we offer, Marmoleum engages all your senses. Its tactile qualities and stunning colour palette provide a sensory experience that brings a touch of nature into our daily lives while reinforcing our profound connection to the environment.

BRINGING THE OUTDOORS IN

Bringing nature inside immediately contributes to our health and comfort, creating a seamless connection between our living spaces and our well-being. Marmoleum provides this touch of nature in our daily lives, whether at work, rest or play, reinforcing our connection with our natural environment.

marmoleum® MADE FROM NATURAL RAW MATERIALS

LINSEED OIL

Linseed oil is pressed from the seeds of the flax plant.

UPCYCLED MARMOLEUM

Upcycling of our Marmoleum as we take back old floors and grind them into new raw materials for new Marmoleum floors.

WOOD FLOUR

Next, we add finely ground upcycled wood (wood flour) such as the branches, trunks, and roots of the trees harvested in the certified forestry industry.

PINE ROSINS

Rosin from pine trees which, together with the linseed oil, is heated and creates a linoleum paste.

JUTE

The fibres from the jute plant are used for the jute mesh carrier on which linoleum is calandered.

ORGANIC PIGMENTS

Organic pigments and natural iron oxide take care of the colouration of the granules.

COCOA SHELLS

We upcycle waste of the cocoa industry by adding cocoa shells to our Marmoleum cocoa collection.

LIMESTONE

The next element to be added to a linoleum paste mix is limestone to create linoleum granules.

Marmoleum is plastic free and does not contain any harmful ingredients. Already boasting best in class quality, but with up to 98% natural raw materials, of which 70% is rapidly renewable, it is a true natural beauty. It is climate positive - cradle to gate, without offsetting.

We are fully focused on closing the loop and making sure that our responsibility for our products doesn't stop the moment the material leaves the factory. Therefore we developed our Back To the Floor program, reusing factory waste, taking back installation waste and even taking back old floors. For more information, please visit www.forbo-flooring.co.uk/sustainability

BACK TO THE FLOOR
RECYCLING PROGRAM

marmoleum®
climate positive
CRADLE TO GATE

Circular ready

With the planet's resources vanishing quickly, it is of ever-growing importance to ensure a circular economy, where products are developed and manufactured to be recycled and reused for a new life and at the same time prevent and sequester carbon emissions.

Marmoleum is the perfect choice for those looking for a flooring option that is both beautiful and environmentally friendly.

Circular ready, reduced carbon footprint and increasing the use of post-consumer recycled content, Marmoleum can be used over and over again.

Long lasting and highly durable thanks to the Topshield pro surface finish, the longer the floor can be used, the more circular it is.

Climate positive, cradle to gate, without offsetting. Produced with 100% green electricity.

PRODUCT DEVELOPMENT & DESIGN

- Marmoleum is designed to go round, it contains recycled content from end-of-life, post installation, cross-industry and closed loop waste streams.
- Timeless design that fits everywhere for everyone, the floor doesn't get outdated.
- Net Fit installation lowering total footprint.

LONG LASTING & EASY TO MAINTAIN

- Marmoleum is highly durable, and is designed with circularity in mind.
- The Topshield pro finish makes Marmoleum easy to clean, hard-wearing and resistant to stains.
- Marmoleum is fit for purpose, for many applications, with no wax or polish.

SOURCING & RAW MATERIALS

- Made of up to 98% natural and renewable raw materials.
- All raw materials are obtained following the ethical and sustainable SA8000 and ISO 14001 certification.
- Naturally plastic-free and phthalate-free flooring.

RECYCLING AND END-OF-LIFE

- Marmoleum is designed with circularity at its core which allows us to recycle end of life material back into new flooring. A closed loop vision is now a reality.
- Of the total recycled content there is always 33% recycled pre-and/or post-consumer flooring waste.
- We've created a fully safe end-of life recycling process with traceable uplifted Marmoleum flooring.
- Every m² saved from incineration after fulfilling its intended purpose, saves emissions to the equivalent of 1.8 kg CO₂.

PRODUCTION AND DISTRIBUTION

- Climate positive, cradle to gate, without the need for offsetting, based on our EPD Marmoleum 2.5mm sheet.
- 100% green electricity.

marmoleum® FORBO'S LINOLEUM BRAND

The Marmoleum collections provide the largest colour palette in resilient flooring, a beautiful array of structures and designs that connects the colours of indoor spaces. Made from natural raw materials Marmoleum is the most sustainable resilient floor around.

marmoleum® solid

The four individual finishes provide the foundation for creating pure, distinctive and modern spaces. The Solid collection combines contemporary styling with a versatility that enables designers to design an elegant, natural backdrop to any interior.

marmoleum® marbled

Taking inspiration from the natural world, and offering a spectrum of over 90 colours across the Fresco, Real, Terra, Vivace and Splash ranges, the Marmoleum Marbled collection combines both subtle and striking marbled effects to create a range that provides the perfect backdrop for any commercial interior.

marmoleum® linear

This Linear collection offers a relevant, functional and desirable range that allows you to create comfortable spaces with a natural touch where you truly feel at home. The directional Linear pattern can be used to create a floor that guides people from one space to another, and to indicate an area within a larger space.

marmoleum® modular

Comprising 6 distinct design ranges – Lines, Textura, Slate, Shade, Marble and Colour, the Marmoleum Modular collection offers 100 x 25cm planks and 50 x 25cm and 50 x 50cm tiles to allow complete design freedom.

marmoleum® click

Our Marmoleum Click panels are very durable and simple to care for. The smooth surface is easy to clean while its beautiful colours won't fade over time. Marmoleum Click is available in 23 colours and 3 panel sizes, which offers great design opportunities to create your own unique floor.

furniture linoleum

Furniture Linoleum is a decorative surfacing material that can be applied to vertical, horizontal and curved surfaces, providing interior furniture with a truly distinctive and individual look.

bulletin board®

Pinboard linoleum, or Bulletin Board, offers a practical, simple solution to collect and exchange thoughts and ideas wherever people plan, create and meet. Simply share your thoughts by pinning your idea onto the wall.

SPECIAL FLOORING SOLUTIONS

(special acoustic and static disappative varieties)

In addition to our standard ranges, we also offer a number of linoleum floor coverings developed to meet specific technical or comfort requirements, including static control and sound reduction.

marmoleum® solid

CONNECT WITH MODERN NATURE

Discover a harmonious connection with modern nature through Marmoleum Solid, a climate positive floor covering, cradle to gate, without the need for offsetting. Crafted from natural raw materials, this collection is designed to elevate any space with its refined aesthetics.

The balanced colour palette effortlessly blends with contemporary trends while remaining true to its natural essence. Marmoleum Solid enhances any interior, making the surroundings the hero for many years to come.

The story of nature is in our genes!

Cocoa

A completely new concept in Marmoleum. Upcycled cocoa husks have been added to create a contemporary aesthetic against a refined unicolour background. Cocoa is circular ready, it contains 43% combined recycled content and with this range we aim to maximise the % of end-of-life recycled Marmoleum floors specifically.

Walton

Named after Frederic Walton, the inventor of linoleum, the Walton range is a series of classic and contemporary solid uni colours that present linoleum in its purest form.

Concrete

A true to life series of concrete colours in modern warm and cool grey neutrals. The range is complemented by a series of 'shimmer' colours that are subtly combined with the grey base.

Piano

A tone in tone scattered design which, when installed, resembles a soft, uni colour but with a subtle, soil hiding decoration. The collection offers both neutral as well as accent colours that all combine very well within the range.

marmoleum® marbled

DEFINING NATURAL SPACES

The Marmoleum Marbled collection provides the broadest colour range in resilient flooring, a beautiful array of structures and designs that connects the colours of any indoor space in a subtle and sophisticated manner. There are 5 marbled designs in this collection;

Fresco

A strong palette of tone in tone colours creating a fresh, delicate and balanced aesthetic with a soft contrast and a refined marbled structure.

Real

The 'royal' classic blend of carefully selected colours, developed to create choice and mixes of colour ranging from warm neutrals to calm greys as well as exciting brights and on-trend shades.

Terra

A close and highly contrasting structure inspired by igneous rock types. It creates a sophisticated small scale marble with great soil hiding properties in an authentic colour mix.

Vivace

Marmoleum's liveliest and most outspoken blend made with six to eight colours to create a chameleon floor that adapts well to a multitude of interiors.

Splash

A modern, playful design which, from a distance, appears a contemporary light grey solid floor with a slight nuance in tone, yet from up close it reveals surprising colours, offering great combinations of interior elements.

marmoleum® linear

CREATING **WARM AND WELCOMING SPACES**

Marmoleum Linear is designed to create a contemporary, comfortable environment with a feel for informal, natural settings with a homely atmosphere. A setting where we will recover faster, feel encouraged to work, share ideas, and to learn. With an intuitive reference to nature, the Linear collection allows you to create various atmospheres within a space, adjusting to its changing needs. The neutral, rich colours have the ability to easily adapt and come to life when combined with each other and other materials. With Linear, the floor can act as a canvas offering endless possibilities.

Feeling at home anywhere

With this Linear collection, we offer a relevant, functional and desirable range that allows you to create comfortable spaces with a natural touch where you truly feel at home. The directional Linear pattern can be used to create a floor that guides people from one space to another, and to indicate an area within a larger space.

marmoleum® modular

CREATE YOUR OWN FLOOR DESIGN

The planks and tiles in this collection are inspired by visuals of wood, concrete, stone and marble with additional accent colours. The designs are featured in a range of colour tones that can be used to mix and match or on their own. The slate and the lines designs in this collection have been awarded both the iF product award as well as the Red Dot design award.

Lines

The colours of natural wood and stone in shades of warm and cool neutrals presented in a range of colour tones that can be used on their own or combined to create a lively harmonious floor pattern of planks of 100x25 cm.

Textura

The Striato Original wood designs have been enhanced with two exclusive embossing structures that follow the wood grain providing the linear design with a sophisticated embossed wood inspired structure. For increased realism, each plank has a unique design.

Slate

Featuring a cool concrete palette with our unique embossing structure, this range offers four natural slate colours in 50x50 cm tiles that come to life on your floor.

Marbled

A contemporary classic design where the colours are created to mix and match, creating subtle nuances in the floor as it is being designed.

Colour

A traditional and classic Marmoleum tile offer which is ideal for use on its own but works equally well when mixed and matched with other ranges of this Marmoleum Modular collection.

Shade

The Shade range represents a series of base colours with a strong monolithic atmosphere.

furniture linoleum

LINOLEUM SURFACES

Forbo Furniture Linoleum is the natural and unique surfacing solution for all your interior design applications. Renowned for its elegance and durability, Furniture Linoleum is also a flexible material that doesn't show fingerprints!

It combines a satin matt surface with a warm, fine texture that gives your interior furniture such as tables, desks, doors and cabinets, a truly distinctive, individual look and feel.

In collaboration with Studio Stefan Scholten

SEE ME, FEEL ME, TOUCH ME

Furniture Linoleum is a unique surfacing material for furniture designs such as desks, stools, cabinets, doors and displays. It is renowned for its elegance and durability, being made of natural ingredients, a sustainable surface choice.

The unique aesthetic and tactile properties ensure that every object develops its own character. The combination of a matt surface and a warm, soft texture guarantees interior furniture with a truly distinctive, individual look & feel.

EASY TO APPLY

Flexible, organic shapes can be created by Furniture Linoleum as it is naturally flexible. It is supplied in a roll format and can be applied both horizontally and vertically, as well as to curved surfaces.

HYGIENIC & ANTISTATIC

The natural composition and the special surface finish ensure that Furniture Linoleum is naturally antistatic. The surface actively resists the build-up of static charges and prevents dust or dirt from sticking to the surface.

NO MARKS FROM FINGERPRINTS

This natural surface linoleum has an earthy, solid quality to it and has one other unique feature: it doesn't show fingerprints!

SIMPLE ELEGANCE

A number of new fresh and stylish colours have been added to the classic colour range that complement current design trends.

bulletin board®

PINBOARD **LINOLEUM**

From the floor to the wall, Forbo Bulletin Board is a linoleum surfacing material that is ideal for walls and vertical surfaces such as notice or pin boards. It is also a functional sound absorbing aesthetic finish for walls, doors or cabinets and is available in framed formats. Its bacteriostatic properties make it ideal for patient rooms and nurses' quarters.

More information www.forbo-flooring.co.uk/bulletinboard

SPECIAL FLOORING SOLUTIONS

In addition to our regular sheet and tile collections featured in the overview presented in this brochure, Forbo also makes a range of special Marmoleum flooring solutions that each serve a specific purpose or provide a solution to a particular additional functionality. For a complete overview of the colours and items in each of these special ranges please consult the Forbo Flooring Systems websites.

ACOUSTIC SOLUTIONS

The best way to reduce sound is at the source. That's why acoustic floors are key when it comes to reducing noise in buildings. Our acoustic linoleum floors create a healthy environment by combining sustainability with excellent sound reduction properties.

Marmoleum Acoustic items reduce impact sound by 14dB. The Marmoleum Decibel collection provides the highest impact sound reduction of 18dB. There is a range of items from our regular collections available as decibel from stock, other colours can be made on request.

FIRE RESISTANCE

For those areas where extended fire retardancy protection is required, Forbo has developed **2.5 mm Marmoleum FR**. This new variant achieves Bfl -s1, G, CS, according to EN 13501-1. Bfl is an improved flooring fire retardancy classification. All other technical details remain the same as the standard specifications for Marmoleum 2.5 mm.

Marmoleum with extended fire retardancy is also classified as a D-s2, d0 wallcovering in accordance with EN 15102. Marmoleum FR is available on request and minimum order quantities and lead times apply. Please contact your local sales manager for more information.

ELECTRICAL RESISTANCE

Marmoleum Ohmex is a static dissipative floor covering that meets higher requirements for electrical conductivity. With an electrical resistance of $1 \cdot 10^6 < R1 < 1 \cdot 10^9$ Ohm, conforming to EN 1081, Ohmex ensures personal safety and protects equipment that is sensitive to static discharge. Ideal for computer rooms, server rooms and areas with sensitive equipment. Marmoleum Ohmex is 2.5 mm thick and available in six colours.

Pre-cut panels sized 61x 61 cm of all Marmoleum colours can be made for raised access floor manufacturers. These are available on request and minimum order quantities and lead times apply. Please contact your local sales manager for more information.

MARMOLEUM 3.2

A range of eight neutral, long lasting Marmoleum Marbled colours in 3.2 mm thickness, is available for those situations in which 3.2 mm is still being specified for its durability, for example on stairs.

DESIGNING WITH **MARMOLEUM**

Are you looking for something unique on your floor? Our Aquajet technique allows us to cut the most detailed and beautiful design inlays into your floor. Standard designs are available, however, you can have your own branding or any other design, created especially for your floor.

Decorative flooring can be functional as well as beautiful. Think of routing signs at floor level in hospitals or museums, or zoning to identify different areas of a building. Signs and Symbols help people to find their way around or recognise the purpose of the space they are in. We have created a standard set of signs and symbols for our Marmoleum floors, but feel free to ask us for custom designs.

More information www.forbo-flooring.co.uk/bespokedesign

FLOORING FOR REAL LIFE

Marmoleum with Topshield pro is the ultimate flooring in many ways. The improved surface finish, developed with the latest technologies and based on our years of experience, maintains the appearance of Marmoleum for longer and enables easier cleaning. We can proudly say that Marmoleum is the best natural floor.

WHAT MAKES MARMOLEUM WITH TOPSHIELD PRO 3X BETTER

BEAUTY KEPT FOR LONGER

While Marmoleum with Topshield pro is designed to maintain its appearance, it's important to follow some simple guidelines that will help maintain the beauty of your floor for longer. When you consider all elements of the triangle, Marmoleum with Topshield pro will do the rest.

GREAT LOOKING **SEAMS**

With a professional Marmoleum installation you will have a water-resistant floor – one that can be cleaned with water, even when not welded.

If there is no specific requirement to weld, you can save time and installation cost by opting for a net fit seam installation. You can find more information on our website: www.forbo-flooring.co.uk/netfit

Marmoleum does not shrink over time when properly installed. That means welding, in the majority of cases,

is not required. Skilled installers can make perfect joints without using welding rod.

In those cases where welding is still required due to local regulations or as a preference, there are matching welding rods available for every Marmoleum design. The best matching welding rod has been selected in either uni or multi coloured structure. The new Marmoweld provides a best in class welding rod solution for cleanability.

FINISHING **TOUCH**

When areas demand hygienic and watertight floor to wall installation, coving offers an elegant solution that can be handmade with the help of a cove forming strip. The Forbo range of pre-formed Marmoform coving and inner- and outer-corners are an ideal alternative. The strong pre-formed coving is easy to install and when welded to the linoleum floor creates a smooth transition that eliminates dirt traps.

Skirtings provide a functional as well as attractive junction between floor and wall. For all Marmoleum colours, a matching wall skirting provides a finishing touch to any installation.

MARMOSTRIP SKIRTING

MARMOSTRIP SKIRTING
WITH HYGIENIC CAPPING

THE DYNAMICS OF A BUILDING

There is an increase in demand for transitional environments; spaces need to be able to evolve and adapt to new functions. These constantly changing spaces require walls and floors that can perform as a chameleon, with timeless colours and materials. These trends and changing mindsets inspired the Forbo Design team to analyse the different dynamics taking place within a building. Five themes were identified; **receiving, moving, connecting, concentrating and recharging**, with each one referring to the different identities a space can have. They express a certain state of a person or an activity taking place within the building.

RECEIVING

The theme 'receiving' describes the scenario of a person entering a building; making a transition from the outdoors to the indoors. A space where one should feel welcome and which is accessible and transparent as first impressions are key. This is the area of the building that should clearly represent the 'feel' of the brand and meet the expectations of the client to make them feel comfortable and at home.

MOVING

'Moving' represents the action towards the destination and the purpose of why someone is in a building. Orientation is priority, so these areas need to be clear to read and offer guidance even when one is stressed. The space needs to be legible and aid with wayfinding.

CONNECTING

The dynamics of a 'connecting' space signifies areas where you will connect with other people within a building, such as open public spaces for spontaneous interactions or semi open spaces for dialogues or brainstorming. These areas allow for an extrovert energy boost or to give the brain time out.

CONCENTRATING

For 'concentrating', the attention is on the individual and avoiding unwelcome distractions. These are secluded spaces for privacy and focus, and while concentrating, people need a muted ambience. Therefore, colour palettes in this area of a building should be subtle and quiet.

RECHARGING

'Recharging' is connected to mindfulness and describes relaxed environments where people can let down their guard and be themselves. This area of the building should reflect a home-like setting, to allow people to refresh and recharge. Light and fresh shades should be used here, encouraging people to take a break, breathe and escape.

HOW CAN WE HELP YOU?

We have outlined all the benefits of choosing a Marmoleum floor for your project. If you need more details, feel free to utilise our range of tools or reach out to us directly.

	Acoustical impact noise reduction	EN-ISO 717-2	≤ 5 dB	≤ 4 dB	≤ 5 dB	≤ 5 dB	≤ 6 dB	≤ 18 dB	≤ 14 dB
	Indoor Air Emissions: TVOC at 28 days	EN 16516	≤ 0,01 mg/m ³	≤ 0,01 mg/m ³	≤ 0,01 mg/m ³	≤ 0,01 mg/m ³	≤ 0,01 mg/m ³	≤ 0,05 mg/m ³	≤ 0,05 mg/m ³
Marmoleum Ohmex 2.5 mm			Electrical resistance 1 x 10 ⁶ Ω < R1 < 1 x 10 ⁹ Ω (static dissipative) tested in accordance with EN 1081						
	Creating better environments		Life Cycle Assessment is the foundation for securing the lowest environmental impact. Marmoleum 2.0 mm and 2.5 mm are climate positive cradle to gate**						
	Natural materials		Marmoleum is a biobased floor made with up to 98 % natural ingredients (e.g. linseed oil, rosin, wood flour, jute and cocoa husks). Marmoleum contains PEFC certified wood flour.						
			Marmoleum is free of PVC, PET, synthetic rubber and plasticizers.						
	Recycled content		Marmoleum contains ingredients derived from recycled sources, which are a combination of post-industrial, post-installation and post-consumer streams of both flooring and non-flooring Marmoleum products.						
			Marmoleum sheet installation off-cuts and post-consumer used flooring are recyclable.						
	Health and safety		Marmoleum is REACH compliant to assure human safety and health.						
	Renewable eletricity		Marmoleum is manufactured using 100% electricity from renewable sources.						
	Green building certifications		Application of Marmoleum sheet can help maximise contribution in green building certifications e.g. LEED, BREEAM, DGNB and WELL.						
			Application on underfloor heating		yes	yes	yes	yes	yes
Marmoleum meets the requirements of EN 14041:2004									
	Product code	EN 14041	0100201-DoP-107	0100201-DoP-107	0100201-DoP-107	0100201-DoP-107	0100201-DoP-107	0100207-DoP-107	0100206-DoP-107

* Marmoleum sheet can be installed Net Fit, or with a welding rod in the seam. Both are proven hygienic solutions.
** For details, please consult the EPD for Marmoleum 4790690881.101.1
*** Marmoleum 2.5 mm is available in reaction to fire classification B_{fl}≤1, G, CS. Available on request, contact sales support for leadtime.

marmoleum® modular

Marmoleum Modular meets the requirements of EN-ISO 24011

	Marmoleum Modular lines, shade, marble and colour		Marmoleum Modular textura and slate
	Total thickness	EN-ISO 24346	2.5 mm
	Domestic: heavy	EN-ISO 10874	Class 23
	Commercial: very heavy	EN-ISO 10874	Class 34
	Light industrial: heavy	EN-ISO 10874	Class 43
	Dimensions (length x width)	EN-ISO 24342	50 x 25 cm / 50 x 50 cm / 100 x 25 cm
	Squareness and straightness	EN-ISO 24342	≤ 0.35 mm
	Residual indentation <i>Typical value</i>	EN-ISO 24343-1	≤ 0.15 mm ~ 0.05
	Castor chair continuous use	EN 425 / ISO 4918	Pass
	Colour fastness to light	EN-ISO 105-B02 method 3	≥ 6
	Resistance to chemicals	EN-ISO 26987	Resistant to diluted acids, oils, fats and to conventional solvents. Not resistant to prolonged exposure to alkalis.
	Bacteriostatic properties	Marmoleum has natural bacteriostatic properties, which are confirmed by independent laboratories, even against the bacteria MRSA.	
	Cigarette resistance	EN 1399	Marks left on linoleum as a result of stubbed-out cigarettes can be removed.
	Slip resistance (ramp test)	EN 16165 Annex B	R9
	Acoustical impact sound reduction	EN ISO 717-2	≤ 5 dB
	Life Cycle Assessment	LCA is the foundation for securing the lowest environmental impact.	
	Creating better environments		
	renewable electricity	Marmoleum is manufactured using 100% electricity from renewable sources.	
	natural materials (e.g. linseed oil, rosin, wood flour, limestone)	Marmoleum contains PEFC certified wood flour.	
	recycled content	Marmoleum contains recycled content.	
	Application on underfloor heating	yes	yes
Marmoleum meets the requirements of EN 14041: 2004			
	Product code	EN 14041: 2004	0100201-DoP-101
	Reaction to fire	EN 13501-1	C _{fr} s1, G, CS
	Slip resistance	EN 13893	μ ≥ 0.30
	Body voltage	EN 1815	≤ 2.0 kV
	Thermal conductivity	EN-ISO 10456	0.17 W/m-K
	Indoor Air Emissions: TVOC at 28 days	EN 16516	≤ 0,01 mg/m³

furniture linoleum

	Total thickness	EN-ISO 24346	2.0 mm
	Roll width	EN-ISO 24341	1.83 m
	Roll length	EN-ISO 24341	≤ 30 m
	Weight	EN-ISO 23997	2100 g/m²
	Residual indentation	EN-ISO 24341-1	≤ 0.20 mm
	Colour fastness to light	EN ISO 105-B02 method 3	≥ 6
	Gloss level	ISO 2813	< 5
	Flexibility	EN-ISO 24344	ø 50 mm
	Resistance to chemicals	EN-ISO 26987	Resistant to diluted acids, oils, fats and to the conventional solvents. Not resistant to prolonged exposure to alkalis.
	Heat resistance	70 °C	
	Antistatic	EN 1815	≤ 0.20 kV
	CO ₂ neutral	Proven by type II environmental product declaration.	
	Life Cycle Assessment	LCA is the foundation for securing the lowest environmental impact.	

bulletin board®

	Total thickness	EN-ISO 24346	6.0 mm
	Roll width	EN-ISO 24341	1.22 m (3 colours in 1.83 m)
	Roll length	EN-ISO 24341	≤ 28 m
	Total weight	EN-ISO 23997	4.700 g/m²
	Flexibility	EN-ISO 24344	Ø 50 mm
	Acoustical sound absorption	EN-ISO 354	0.10
	Self-healing properties	LH000420	yes
	Force on pins - Perpendicular to pin direct	LH000421	25 N (typical)
	Force on pins - Perpendicular to pin at 7 mm	LH000421	10 N (typical)
	Force on pins - Parallel to pin (pulling the pin out)	LH000421	15 N (typical)
	Bacteriostatic properties	EN-ISO 22196	Marmoleum has natural bacteriostatic properties which are confirmed by independent laboratories, even against the bacteria MRSA.
	Resistance to chemicals	EN-ISO 26987	Resistant to diluted acids, oils, fats and to the conventional solvents. Not resistant to prolonged exposure to alkalis.
	Anti-static	yes	
	Gloss	Only available in matt colours: low reflection of sunlight or artificial light.	

Forbo Flooring Systems is part of the Forbo Group, a global leader in flooring and movement systems, and offers a full range of flooring products for both commercial and residential markets. High quality linoleum, vinyl, textile, flocked and entrance flooring products combine functionality, colour and design, offering you total flooring solutions for any environment.
