woven flooring

EACH ROOM RAISES NEW CHALLENGES.
THAT'S WHY OUR SHAPE LAB ALLOWS UNPRECEDENTED SCOPE FOR TESTING AND MODULATING FLOOR SURFACES.

From offices to hotels to homes, each space is unique, and so are your design choices.

Now available to order in 12 shapes, Dickson Woven Flooring offers countless layout possibilities.

Free yourself from standard layouts or complement them by mixing references and shapes to create rhythm, perspectives and reflections to transform interiors. Allow your imagination free rein by playing with lighting, textures and reflections.

With our ranges and their palette of unique colours to choose from, create your own rules and transform your flooring into a design feature.

Visuals not contractual.

From offices to hotels to homes, each space is unique, and so are your design choices. Now available to order in multiple shapes, Dickson Woven Flooring offers countless layout possibilities. Free yourself from standard layouts or complement them by mixing references and shapes to create rhythm, perspectives and reflections to transform interiors.

Allow your imagination free rein by playing with lighting, textures and reflections. With our ranges and their palette of unique colours to choose from, create your own rules and transform your flooring into a design feature.

YOUR FLOOR BECOMES
**A FORM OF CREATIVITY,
FLOORING AN ART FORM.**

FAQ

HOW DO YOU ORDER SHAPE LAB PRODUCTS?

Shape Lab products can be ordered in the same way as our collection products. Please send your request to your Dickson sales representative. They will get back to you at the earliest opportunity.

DO YOU MAKE SHAPES ON DEMAND?

Twelve shapes are currently available in the Shape Lab range. For standard sizes, please see our brochure. We are working hard to develop new products to offer you even more options in the future.

WHAT IS YOUR PRODUCTION LEAD TIME?

Shape Lab products are produced on demand. Average production time is three weeks.

IS IT POSSIBLE TO MIX SHAPES AND RANGES?

It is possible to combine compatible shapes (tiles - strips - triangles and half-hexagons). Ranges may also be combined for both compatible and non-compatible shapes. Please let us know how you intend to lay the shapes when ordering so we can provide you with the best possible service.

ARE SHAPE LAB PRODUCTS MORE DIFFICULT TO LAY THAN CONVENTIONAL PRODUCTS?

The laying of Shape Lab products requires a higher level of technical expertise, which is why we advise you to work with one of our Dickson Woven Flooring partners (for France, please see the list on our website). Floor fitting and maintenance experts are also available to advise and guide you.

WHAT DO THE ARROWS ON THE PLANKS MEAN?

Half of the planks are systematically delivered delivered cut in the warp and half cut in the weft of the weave. Unless you specify otherwise, this ordering system applies to all orders of two boxes minimum (1 warp and 1 weft). If you only order one box of planks, planks are cutted in the warp only. If you wish to order several colours, half of the planks will automatically be supplied cut in the warp and half cut in the weft unless you specify a preference for all colours to be cut in the warp.
