The Balearic Collection

JAN ERIKA

— Introducing Jacaranda's New Balearic Collection by Jan Erika

One of the UK's most sought-after abstract artists, Jan Erika's work graces the walls of New York skyscrapers, English Heritage castles and luxury high end interiors.

As well as an acclaimed artist, Jan-Erika has enjoyed a successful career as a classically trained concert cellist. Her work resonates with the 'rhythm of the landscape,' drawing connections between the melodies of her cello and the strokes of her brush.

From water colour to rug

The Balearic Collection

Consists of four designs inspired by the diverse landscapes of Mallorca, from the golden coastal caves of Sa Calobra to the verdant greenery of Valldemossa. Jan Erika's designs epitomise Jacaranda's love for handmade textures, natural materials, and refined colour palette.

Each rug has been hand-tufted in renewable fibres TENCEL™ and wool. They demonstrate contrasting textures, artisan carving and varying pile heights to create rugs that will add impact and sophistication to any interior.

Fully customisable

All the designs can be made-to-measure as rugs and wall to wall carpet, they come with a contract rating suitable for luxury residential and high-end commercial installations. The colours and yarn composition of each design can be tailored to suit the location.
